

btn.btn\_1.Heavy

A scatter plot showing the relationship between the number of species ( $S$ ) and the number of samples ( $n$ ) for 1000 samples. The x-axis represents the number of samples ( $n$ ) and ranges from 11.0 to 12.6. The y-axis represents the number of species ( $S$ ) and ranges from 0 to 10. The data points are blue dots, showing a general upward trend with significant scatter. The points are distributed across the plot area, with a higher density of points at lower values of  $n$  and  $S$ .
